UF in Purpan is a unique 8-week summer exchange program. Students spend the first 4 weeks on campus in Toulouse and then relocate to internship sites across France to complete the final 4 weeks of the program. While on campus students will participate in lectures, field trips, cultural visits and excursions to locations like Barcelona and the Pyrénées Mountains. The internship portion of the program allows students to gain practical work experience on a farm, within an agri-related business (equestrian center, cheese making farm, vineyard) or within a laboratory at Purpan.

At the crossroads of the Atlantic Ocean, the Mediterranean Sea, & the Pyrénées Mountains you will find Toulouse. It is the 4th largest city in France with a student population exceeding 100,000. The city is famous not only for its aeronautics & space industry, but also for its cultural heritage & gastronomy. Internship sites are located in mostly rural areas across France.

The main excursions of the program include weekend trips to the Pyrénées Mountains and to Barcelona, Spain. There are a number of course excursions including the French Roquefort Cheese factory, Languedoc-Roussillon vineyards and a French cooking school.

On-campus: Single occupancy student housing with a shared kitchen facility. Internship: On-site homestay with a French family.
