The western hemisphere is home to only one honey bee species, but all nine honey bee species can be found in southeast Asia. This course will allow you to discover the amazing diversity of honey bee species and the different ways in which people manage them. For two weeks, you will be exposed to Asian beekeeping as you explore different management styles and beekeeper purposes in Thailand. You will visit multiple beekeeping operations throughout the coastal regions of Thailand and be immersed in the local culture.

Thailand is a Southeast Asian country known for tropical beaches, opulent royal palaces, ancient ruins, and ornate temples displaying figures of Buddha. During this program, you will be hosted by Burapha University in Chonburi, Thailand.

This program involves a significant amount of time spent traveling to locations throughout Thailand, looking for wild honey bee colonies or working with beekeepers. Notably, a few days will be spent in the cities of Chiang Mai, Bangkok, and Ko Samui.

You will share apartment-style dorm rooms with other students at Burapha University. During the traveling segments of the program, you will share hotel rooms with two twin beds.

UF IN THAILAND
BEEKEEPING IN ASIA | Summer A 2024: (May 19 - June 15)
